Relevant Experience

Frontend Developer — *VisionBird Technologies*

July 2024

- Developed front-end interfaces with React, Tailwind CSS, and Material UI
- Collaborated closely with senior developers to learn new libraries and frameworks

Frontend Intern — *AU Softs*

Sep 2023 – Dec 2023

- Developed and maintained front-end interfaces, ensuring responsive design and cross-browser compatibility.
- Collaborated closely with senior developers to implement new features and optimize existing codebases.
- Participated in regular code reviews, contributing to team-wide quality assurance efforts.

Frontend Intern (Remote) — *Swift Solvers*

Oct 2023 – Jan 2024

- Built responsive web applications using modern frontend frameworks, focusing on usability and performance.
- Communicated effectively with a remote team to coordinate project deliverables and ensure timely completion.

Education & Certifications

Software Engineering — *Bachelor of Science*

Sep 2019 - March 2024

University of Gujrat

Frontend Developer Certificate — *Meta*

This certificate provided in-depth training on modern frontend technologies, using React, CSS, JavaScript, accessibility, performance optimization, and responsive design.

Responsive Web Design Certificate — *FreeCodeCamp*

Through this certification, I learned to build web pages using HTML, CSS, and Flexbox, focusing on responsive layouts and best practices for web accessibility.

Skills

Programming Languages

Typescript, JavaScript (ES2015+), CSS, HTML

Libraries & Frameworks

React, Tailwind CSS, MUI

Tools & Platforms

Git, GitHub, Netlify, Vercel, Figma, WordPress, Shopify

Selected Projects

Van Life *(currently in development)*

Developing a comprehensive web application using React, focusing on Router 6 and nested routing to create intuitive and efficient user navigation experiences.

VirtualR

Designed and developed a modern, elegant responsive layout for a virtual reality landing page using Typescript and Tailwind.

Meme Generator

Developed with React, utilizing APIs and state management to create a dynamic meme generation tool.

Clarity

A minimalistic web app that offers seamless personal task management with Firebase data storage and responsive design.
