

ASAD SHARIF

(92) 300 9628704 • asadsharif1270@gmail.com • github.com/asad-sharif • linkedin.com/in/asad--sharif

Software Engineer with 2.5 years of experience working as a **frontend developer** with **modern JavaScript ecosystems**. Focused on UX precision, performance, and maintainable architecture. Experienced in **agentic development workflows** and **AI-assisted development** to iterate efficiently, improve code quality, and deliver reliable products at speed while working closely with product, design, and engineering teams.

SKILLS

- **Programming Languages:** TypeScript, JavaScript (ES6+), HTML5, CSS3
- **Frontend Libraries & Frameworks:** Next.js, React.js, Redux-Toolkit, RTK Query, Zod, Web Sockets, Tailwind CSS, Material UI (MUI)
- **AI-Assisted & Agentic Development:** AI-Assisted Development (Cursor), AI-Generated Code Review
- **Design & Development Tools:** Figma, Git, GitHub, Vercel, Cursor
- **Familiar:** Node, Express, MongoDB, REST APIs Development

RELEVANT EXPERIENCE

Frontend Developer • AHK Solutions 07/2025 – Current

- Built responsive, production-ready **CRM Dashboard** with Next.js, translating Figma designs into clean, reusable, and maintainable frontend implementations.
- Implemented **RBAC** and RTK Query-based data fetching and caching, ensuring efficient API communication and predictable application state.
- Integrated applications with RESTful APIs and collaborated in debugging, peer reviews, and Agile development workflows to maintain code quality.
- Used **Cursor** and **agentic AI workflows** to accelerate delivery while conducting **AI-generated code review and validation** with peer developers before production release.

Frontend Developer • VisionBird Technologies 01/2024 – 06/2025

- Built responsive, interactive user interfaces with React.js and Material-UI, **converting Figma designs** into production-ready web applications.
- Connected frontend applications to RESTful APIs and managed application state efficiently, ensuring smooth data handling and optimal performance.
- Supported full-stack development within a **MERN** environment by implementing authentication and backend APIs, while actively participating in Agile ceremonies, code reviews, and system debugging.

PROJECTS

Elevation Ex MERN, Redux-Toolkit, JWT, MU

- Built a **full-stack** platform for export operations with **JWT auth**, product & order management.
- Developed responsive interfaces with React and MUI for seamless cross-device UX.
- Implemented Redux Toolkit for precise state control, ensuring fast and reliable updates across the app.

Clarity MERN, Redux-Toolkit, JWT, Shadcn

- Built a **full-stack task management** app with Express, and MongoDB using JWT auth.
- Designed RESTful APIs for user and task management with validation and error handling.
- **Secured routes** with middleware to enforce user access control and data integrity.

EDUCATION & CERTIFICATIONS

BS Software Engineering • University of Gujrat 2019 - 2023

Meta Front-End Developer Specialization • Meta

Completed a **9-course, 200+ hour professional program** designed by Meta engineering experts; mastered adv JavaScript & React, implemented version control with Git, and applied UI/UX design principles using Figma.

Responsive Web Design Certification • FreeCodeCamp

Completed **300+ hours** of hands-on coursework and developing **5 core projects**, mastering semantic HTML5, advanced CSS3, accessibility best practices, and fluid layouts for cross-device compatibility.
